HUGH MOHAN.

HE SPEAKS ON THE LABOR QUESTION.

And Talks in an Eloquent and Sensible Manner.

The orator was introduced to the audience by Gov. Laughton and was greeted by a tremendous round of applause.

Mr. Mohan opened his remarks by quoting extracts from the platforms of the Communists, Anarchists, Socialists, Republicans and Democrats, and showed beyond controversy that each and all were reflexes of the labor doctrine as advocated so logically by T. V. Powderly, Grand Master Workman of the Knights of Labor, which embraced organization, arbitration, the right of self-protection against the unnecessary reduction of wages and the promulgation of temperance principles.

The speaker then read a list of thirty alien syndicates and private individuals who held in the aggregate 20,742,000 acres of land in the United States. He compared this vast territory with the area of Ireland which it exceeded by 371,941, of Scotland, which it exceeded by 1,122,000 acres.

In the former days of Ireland when it had Home Rule 8,000,000 could be supported, now only 5,000,000, and her absentee landlords both English and Irish have invested their ill-gotten gains in American soil while intending to spend the future profits in France and England. The only way to upset this incursion upon the domains and resources of America is to elect men of intelligence to the Senate and House of Congress instead of men who bring nothing but a sack to the voters of Nevada and who hold themselves in no way responsible for their political acts after election, simply because they consider that they have paid for the office and that their constituents have got the money and the \$2 gold pieces with which they cover their political sins.

The speaker predicted the election of Henry George, who was the central figure of the labor world, and that he would not be surprised to see Leland Stanford and Henry George on the same ticket. Stanford the nominee of capital for President and George the nominee of Labor for the Vice-Presidency, thus bringing about the long sought matrimonial alliance of Labor and Capital, with prosperity and progress, the first fruits of the union, with Stanford the executive head of the Nation and George presiding over the House of Representatives, and seeing that the interests of the laboring classes were conserved.

When the alliance of labor and capital is brought about, an era of unexampled prosperity will dawn upon the United States. The fight so long continued between labor and capital will prove disadvantageous to both. It makes the wages of labor greater in value, and also the value of the produce which capital has to sell. The mutual interest of both is the mutual interest of the United States; I may say the world.

The sooner they go hand in hand together down the broad highway of progress the better for humanity and civilization.

If you have any contest with capital in your own city close the strife at once and try and meet on common ground. Do not let designing politicians control your actions and cause you to dash your brains out against a stone wall of money, that they may reap benefits where you do the fighting. See that the money men in your town pay good wages for labor and skill, and after you make them do not bother with their politics, and do not allow them to bother with yours.

Go to the polls on election day and vote for the man who can best represent you in the council chambers of the Nation, not because he is rich but because he is tireless in your behalf and intellectually able to cope with any man he meets on the floor at Washington. Recollect that today Nevada has one representative whose reputation is world-wide, not because of his wealth, but because of his intellectuality, as against the reputation of his colleague enjoys, of being the richest man in America.

Send a man alongside of Jones who has brains, whether he be Democratic or Republican, a man who will fight for silver and a man

what will stay the Mongolian tide; and a man who will advocate improvements and Government subsidies for this State, redeem the lost prestige of this State and help wrest the Nation from the corroding influences of Mugwumpery.

I trust there are no Mugwumps in Carson City, because wherever found they are regarded as nothing more than a fungus, which should be eradicated. A Mugwump is nothing more than a political hybrid; not even the connecting link between extremes. He is the platform of monarchy and pseudo respectability in the guise of a publicist and Democracy combined. He is the suave representative of an effete aristocracy; he professes himself to be the workingman's friend, not here in Carson, but all over the country, not on account of his love for the poor fellow, but for the effrontery he has of posing as a friend and advocate of the doctrine of the present Administration; he is neither friend nor foe, fish or fowl, but foul in political methods wherever he has an opportunity, and financially must have a bonanza at his back a good deal better than himself. Mugwumpery is the fruit of political failure and disappointment, and Mugwumps are those who lack the steam and stuff that enables men to stand defeat; they are but the squealers in the political nursery, and should be fed on infants' food.

Labor has grown so progressive that capital is now anxious to make an alliance with her, and if this can be brought about the alliance will be the most powerful in the world. It makes no difference under which party banner she marches, so long as each party is represented by intelligent men, and two years will not pass away before we will see a practical illustration of the old Declaration of Independence of 1776, in which we find the glorious principle enunciated that all men are born free and equal.

At the close of his remarks the speaker was surrounded by numbers of the audience who congratulated him on his fine oratorical effort, which from beginning to end had been emphasized with enthusiastic applause.

Wm. H. Doane.

The Carson Free Lance pays this deserved tribute to Wm. H. Doane candidate for County Clerk on the Republican ticket:

Wm. H. Doane, the Republican nominee for County Clerk is deserving the votes of all the men in his party. He has been a resident of Nevada since 1868 and of this county since 1874. He did good service during the war of the rebellion in the navy with Admiral Porter and other commanders, and has held various offices of trust in this State in which he has always acquitted himself creditably. He has his family among us and is a citizen and taxpayer who knows what our people require. He will fill the office he seeks honestly, faithfully and creditably to himself and to the people of the county.

Newspaper Apportionment.

On Monday last the Executive Committee of the Nevada Newspaper Association met the Republican State Central Committee at Virginia City, and discussed the newspaper apportionment of the campaign money as made by the Press Committee. After some talk the Press Committee, in view of the dissatisfaction expressed by some publishers relative to the apportionment, turned the whole matter over to the State Central Committee.

An official Family.

When C. C. Stevenson was President pro tem of the Senate of Nevada, his brother was Speaker of the Idaho House of Representatives and the other the presiding officer of the lower house of Canada.

When baby was sick, we gave her Castoria,
When she was a Child she cried for Castoria,
When she became a Girl, she clung to Castoria,
When she had Children, she gave them Castoria.

—A vote for John D. Kersey means a thorough taxation of Ormsby county. John D. Kersey has succeeded in collecting taxes from everybody, letting none escape, thereby causing a more equal distribution of taxation, and reducing the rate.

ALL PORTS.

—Wizard Oil at Geo. Thaxter's.
—John P. Sweeney is back from San Francisco.

—There will be a Republican rally in Empire this evening and a free train from Carson.

—The news from the East indicate that the success of the State ticket from top to bottom is fully assured and the prospects grow brighter daily.

—Though numerous causes may operate to turn the hair gray, all that is needed to restore the natural color is Hall's Vegetable Hair Renewer. For more than twenty years its sales have been enormous, but we have yet to learn of its first failure.

—Is a man that dare not come before the people and let the sunlight stream on his bloody record, a fit man to be a candidate for the U. S. Senate? Ellis, Deal, Cassidy and Stone are the men behind whom this sneaking candidate crawls and crouches.

—The Mugwumps curse and revile Stewart because he stood like a stone wall between white men and Chinese suffrage, and stand by Col. Ellis who employs a Chinaman. After this exhibition of inconsistency they have the solid assurance to tell the voters that they are running an anti-Chinese ticket.

—The Republican party has given Ormsby county the Capital, the State's Prison and the Orphans' Home. If the banner county turns on its benefactors, do you suppose that the Republicans from other parts of this State will recognize our claims from this on? Already there is talk of moving these buildings away from Carson.

—The gubernatorial battle ground is Storey county, and is so acknowledged by both parties. Every day Stevenson grows stronger and the failure of the Democrats to prove the charges against him is fast making him votes. It is now a settled fact that Adams will have to carry Storey by 600 to win. Stevenson's majority is placed at 150.

—While the Republican home rulers and Mr. Stewart are fighting each other, it looks as if Senator Fair would quietly be re-elected. At least Democrats are putting up their money on it, and coin talks in Nevada.—S. F. Examiner.

It looks this way in San Francisco, and it looks that way here. Nobody is fooled here by this thin blind.

—A vote for the Assembly ticket of Ormsby, means a rebuke to Jim Fair the "man-afraid-of-his-record" and means a delegation in the Legislature that can go into caucus with the Republican party. A Mugwump Legislative ticket means a set of men which will not be admitted into the caucus of any party and will be a cypher where active work is needed.

—An elastic step, buoyant spirits, and clear complexion, are among the many desirable results of pure blood. The possessor of healthy blood has his faculties at command, and enjoys a clear and quick perception, which is impossible when the blood is heavy and sluggish with impurities. Ayer's Sarsaparilla is the best blood purifier and vitalizer known.

—Adams has gone to Storey to stay there until the 2nd. He looks already like a disheartened broken man and realizes that this is his last political struggle. The anti-Adams Democrats have sent a secret circular all over the State calling upon the friends of these he has betrayed and lied to, to vote for C. C. Stevenson. The friends of Bradley, Cannavan and Burke are camping on his trail from Storey to White Pine.

—The Journal says the railroads did a good deed when they made its editor Surveyor General. As he has caused the entire cessation of patents being issued, and tied up surveys for a year or two by his course, and has advertised the State of Nevada to the whole earth as an ash heap, the good deed must have been done to him, as we cannot see where the State's share comes in. Patents are tied up and no farmer or stockman outside of Railroad limits can now get a foot of land surveyed or patented.—Gazette.

—For the best horse liniment now in the market go to Doc. Boston. It is his own make, and warranted to beat all the fancy brands.
